

# Let Your Kingdom Come

Brian McLaren

Tracy Howe

Verse 1:                **Em**                                **D**  
Let your kingdom come and liberate  
  
                                 **C**                                **B7**  
every prisoner of greed and hate  
  
                                 **Em**                                **D**  
Let it fill our hearts with love for you  
  
                                 **C**                                **B7**  
for our neighbors and for our enemies too

**Chorus:**        **Em**    **C**  
**Hallelujah Let your kingdom come**  
  
                         **Em**    **C**  
**Hallelujah Let your kingdom come**

Verse 2:                **Em**                                **D**  
Let your kingdom come and end all war  
  
                                 **C**                                **B7**  
And the pain and grief of the oppressed and poor  
  
                                 **Em**                                **D**  
Let all violence be finally put away  
  
                                 **C**                                **B7**  
Let the streets find safety so the children can play        **Chorus**

Verse 3:           **Em**                               **D**  
Let your kingdom come and let cool streams flow

**C**                               **B7**  
Let your fields flourish and fresh wind blow

**Em**                               **D**  
Let your children save instead of destroy

**C**                               **B7**  
So every creature can thrive free in health and joy. **Chorus**

Coda:               **G**                               **D**  
Let your kingdom come and every knee bow

**Em**                               **C**  
To the king who was, will be and is now

**G**                               **D**  
And let justice roll, as the rivers run

**Em**                               **C**  
And let death give way to resurrection! *(repeat Coda as desired)*
